

COLD-PRESSED CRANBERRY SEED OIL NOTHING MORE...NOTHING LESS

Unmatched absorption and utilization by the skin
due to perfectly balanced fatty acids

*Directions: can be used daily AM & PM by massaging a few drops
onto clean skin, then apply other skin-care products as desired*

IMPORTANT BENEFITS

- Superlative anti-ageing functionality due to unparalleled tocotrienol ("Super vitamin-E") content.
- Maximum hydration for all skin types.
- Lightens and brightens skin.
- Stimulates collagen production and acts to repair damaged collagen.
- High phytosterol content helps reduce signs of sun damage, reduce inflammation and offers relief for irritated skin.
- High in Vitamin A and carotenoid content provides additional antioxidant protection.
- Maintains the health of skin cell membranes, which results in soft, moist and supple skin.

KEY FEATURES

- Berry Beautiful produces virgin, cranberry seed oil from U.S. grown cranberry seed using our proprietary cold-press and seed drying process.
- Low temperatures (below 120° F) are used during drying and pressing to preserve the integrity of fatty acids, vitamin E and phytosterols.
- NO additives, enzymes, chemicals, solvents or process aids of any kind are used in the manufacture of our oil.
- Produced at our certified food grade processing facility in Tukwila, Washington.
- Berry Beautiful's uncompromising focus on quality during seed drying and cold-pressing creates a cranberry seed oil of the very highest quality.

USES

- Cranberry seed oil is a rich nourishing oil. Use it as a stand alone facial oil to replenish and nourish your skin.
- Add to any skin care formulation to optimize absorption and penetration of active ingredients and botanicals.
- Stand-alone or added to a skin care formulation, cranberry seed oil boosts anti-oxidant activity and lightens and brightens the skin.
