GMO FREE

COLD PRESSED

KEY FEATURES

- Berry Beautiful produces Certified Organic red raspberry seed oil from locally grown Certified Organic red raspberry seed using our proprietary drying & cold-press processes
- Low temperatures (below 120° F) used during drying and pressing preserves the integrity of fatty acids, vitamin E and polyphenols
- NO additives, enzymes, chemicals, solvents or process aids of any kind are used in the manufacture of our oil
- Produced at our certified food grade processing facility in Vashon, Washington
- Most unsaturated cosmetic oil on the market; with 85% polyunsaturated fatty acids
- Berry Beautiful's uncompromising focus on quality during seed drying and cold-pressing creates a raspberry seed oil of the very highest quality.
- We recommend using red raspberry seed oil before and after your skin is exposed to intense sunlight for extended periods of time. Raspberry seed oil boosts the effectiveness of sunscreens by scattering/absorbing UV light and through its anti-oxidant and anti-inflammatory properties. Used by itself, raspberry seed oil protects your skin from photo-aging, when your skin is exposed to moderate amounts of sunlight.
